

Certificate of Professional Development

Ashwini Aher

in recognition of completion of

The NAVIGATE Project, 2017-2018 Cohort

The NAVIGATE Project is a skills-based program to train women graduate students in STEM disciplines to recognize and act strategically to overcome career adversity without derailing their careers, with the goal of improving persistence and advancement of women in STEM careers nationwide.

The NAVIGATE Project is supported by a National Science Foundation Research Traineeship (NRT) award in the Innovations of Graduate Education (IGE) Track, and is led by the University at Buffalo and California Polytechnic State University.
